

Monsoon Watch

Stagnation in further advance of SW monsoon likely due to weakening of monsoon current. Countrywide rainfall has remained 19% above normal since June 1. Ongoing heavy rainfall spell over NE India likely to continue in the next two days. NE India recorded 116% excess rainfall on Wednesday. An excess of 27% over normal rainfall recorded over the country on Wednesday. Strong dust-raising winds likely in NW India during next two days. Rainfall in interior parts of south peninsula & central India likely to reduce. Scanty rainfall likely in Delhi & adjoining states from Friday. Day max temperatures likely to rise by 2-3°Celsius over eastern parts of the country in next 2 days.

MCA to Step Up Probe into Nirav, ICICI Cases

PP Chaudhary says since introduction of IBC, defaulting promoters were paying up; over ₹1 lakh crore recovered so far

Ruchika Chitravanshi @timesgroup.com
New Delhi: The Ministry of Corporate Affairs is stepping up its probe into two high profile cases: the Nirav Modi scam and the ICICI Bank controversy. Union minister PP Chaudhary said...

Case Update
Nirav Modi Scam
19 cos referred to SFIO for probe
49 cos being probed by regional directors
30 investigation reports received by MCA being examined
ICICI Bank Issue
Probe ordered into NuPower Renewables & 5 more cos
RoC to examine the books for any fraudulent activity

Chaudhary said. The regional directors of the Registrar of Companies will probe another 49 firms. "We have received some investigation reports about a few companies by SFIO and the regional directors. The government is examining them to decide further action," Chaudhary told ET. In the case over alleged quid pro quo transactions involving ICICI Bank and the Videocon Group, the ministry has ordered a probe into NuPower Renewables and five other companies. ICICI chief executive Chanda Kochhar's husband Deepak Kochhar owns NuPower Renewables. The ministry will also probe the books of companies involved in the ICICI controversy. The central bank and the CBI too are probing the case.

India Seeks Help from World Bank on GeM Software Pricing

Keen to take cue from US, Singapore, S Korea & Chile on benchmarks for procurement portal

Kirtika Suneja & Surabhi Agarwal
New Delhi: India has sought World Bank's help to put in place an adequate pricing mechanism for various kinds of software products hosted on the national procurement portal, an online marketplace for government departments and state-run companies to buy various goods and services. "GeM (Government e-Marketplace) is grappling with benchmarking of proprietary software and items which are evolving now, items without any previous price history," a senior government official told ET. The US, Singapore, South Korea and Chile are among countries from which the commerce ministry-led GeM wants to get price benchmarks for software products with the help of World Bank, the person said.

India, US to Soon Hold Talks on Trade Issues

Purchases of commercial aircraft & gas from the US will help bridge trade deficit between two countries: Prabhu

Our Bureau
New Delhi: Commerce and industry minister Suresh Prabhu has said India's purchases of commercial aircraft and gas from the US would help bridge the trade deficit between the two countries even as they agreed to hold official talks soon to address trade and economic irritants between them.

ED will Move to Declare Nirav Fugitive
Mumbai: The Enforcement Directorate (ED) will move the designated Prevention of Money Laundering Act (PMLA) court over the next couple of days to declare diamond merchant Nirav Modi a fugitive under the new Fugitive Economic Offenders Act, which the agency admitted, Modi will be the first person to be declared fugitive under the new law once ED completes the application process and the court approves it. "Now, since the court has issued a non-bailable arrest warrant against Modi, the next step would be to declare him a fugitive," said a source aware of the development. "Invocation of the act will enable the investigation agency to confiscate the attached properties under the PMLA and auction them without waiting for the trial to begin." - Our Bureau

India had a \$21-billion trade surplus with the US. Prabhu pointed out to new market opportunities in these as well as other areas, adding that these purchases had already led to reduction in bilateral trade deficit in 2017. "Future sales will sustain this trend and create a balanced trade relationship between the two countries," the commerce and industry minister said in a statement on Wednesday after the minister's visit from June 10-12. His statement assumes significance in the wake of US President Donald Trump accusing India of levying 100% tariff on some American products and threatened to cut off trade ties if America's trading partners did not cooperate. "In this context, it was agreed that Indian and US officials would meet at a senior level at an early date to discuss various issues of interest to both sides and carry forward the discussions in a positive, constructive and result-oriented manner," the ministry said. However, trade experts have cautioned that India's gains from the talks could be limited because the US tariffs are already low and it can't offer any more duty concessions to Indian exports.

CSIR-NATIONAL METALLURGICAL LABORATORY
Jambhedpur - 531 067
NIT No. NML-3(02/AMP/AKP)/18-PS(15) Date: 12.06.2018
